

1. Record Nr.	UNISA996202092403316
Titolo	Photoperiodic regulation of insect and molluscan hormones
Pubbl/distr/stampa	London, : Pitman Newark, N.J., : Distributed in North America by CIBA Pharmaceutical Co., Medical Education Division, 1984
ISBN	1-280-78413-X 9786613694522 0-470-72085-9 0-470-71855-2
Descrizione fisica	1 online resource (308 pages) : illustrations, charts
Collana	Ciba Foundation symposium ; ; 104
Disciplina	595.7/01927
Soggetti	Insect hormones Insects - Physiology Mollusks - Physiology Photoperiodism
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Symposium on Photoperiodic regulation of insect and molluscan hormones, held at the Ciba Foundation, London, 12-14 July 1983"-- Contents page.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Photoperiodic regulation of insect and molluscan hormones; Contents; Chairman's opening remarks; Introduction: the links between 'wet' and 'dry' physiology; Unity and diversity in insect photoperiodism; Discussion; The circadian component in photoperiodic induction; Discussion; Photoperiod reception in spider mites: photoreceptor, clock and counter; Discussion; Long-night summation and programming of pupal diapause in the flesh-fly, <i>Sarcophaga argyrostoma</i> ; Discussion; GENERAL DISCUSSION; Effect of temperature on the photoperiodic clock in <i>Megoura viciae</i> Long- and short-day effects on diapause induction in <i>Pyrrhocoris apterus</i> ; Genetic analysis of geographical variation in photoperiodic diapause and pupal eclosion rhythm in <i>Drosophila littoralis</i> ; Discussion; Neuronal organization of a circadian clock in the cockroach <i>Leucophaea maderae</i> ; Discussion; Circadian-clock control of hormone secretion in

Samia Cynthia ricini; Discussion; Circadian control of haemolymph ecdysteroid titres and the ecdysis rhythm in *Rhodnius prolixus*; Discussion

Photoperiodic regulation of prothoracicotropic hormone release in late larval, prepupal and pupal stages of *Sarcophaga bullata*; Discussion; Reproductive endocrinology and photoperiodism in a terrestrial slug; Discussion; Photoperiodicity, rhythmicity and endocrinology of reproduction in the snail *Lymnaea stagnalis*; Discussion; Physiological aspects of the two oscillators that regulate the timing of eclosion in moths; Discussion; A hormonal basis for the photoperiodic control of polymorphism in aphids; Discussion

Environmental signals, the neuroendocrine system, and the regulation of larval diapause in the southwestern corn borer, *Diatraea grandiosella*; Discussion; CONCLUDING GENERAL DISCUSSION; Models, hormone titres and clocks; Concluding comments; Index of contributors; Subject index
