

1. Record Nr.	UNISA996202110503316
Autore	Atkinson Bill
Titolo	Electrical installation designs [[electronic resource] /] / Bill Atkinson ; revised by Roger Lovegrove
Pubbl/distr/stampa	Malden, MA, : Blackwell Science, 2003
ISBN	1-281-30853-6 9786611308537 0-470-77472-X 1-4051-4738-5
Edizione	[3rd ed.]
Descrizione fisica	1 online resource (xii, 211 p.) : ill
Altri autori (Persone)	LovegroveRoger
Disciplina	621.31924
Soggetti	Electric wiring, Interior Electrical engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Previous ed.: 2000. Includes index.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Preface; Introduction, Three Bedroom House, A Block of Retirement Flatlets, Overcurrent Protection, An Architect's Office, A High Street Shop, Earthing and Bonding, Car Service Workshop, Circuits, Farming and Horticulture, Isolation and Switching, A Village Sports Centre, An Indoor Swimming Pool, Cables and Wiring Systems, Completion, Advanced Ideas; Index
Sommario/riassunto	There are many books on electrical installation practice which focus on calculations and regulations. This handbook takes a different approach, by presenting typical projects to produce designs that will fit current standards.
