Sommario/riassunto

The first major study in over three decades to explore the essential arguments of all the major theoretical interpretations of nationalism, from the modernist approaches of Gellner, Nairn, Breuilly, Giddens and Hobsbawm to the alternative paradigms of van den Bergh and Geertz, Armstrong and Smith himself. In a style accessible to the student and the general reader Smith traces the changing view of this hotly discussed topic within the current political, cultural and socioeconomic arena. He also analyses the contributions of such historians, sociologists and political scientists as Seton-W
