| Note generali | Refereed/Peer-reviewed |
| Sommario/riassunto | Created in 2011, as a spin-off from Biomedicine & Pharmacotherapy, this journal has an International Editorial Board of researchers and physicians working in oncology, cardiology, neurodegenerative diseases, nutritional pathologies and all aspects of disease pathologies affecting children and the ever-growing number of the elderly throughout the world. This included effects of nutritional and psychological conditions. The pathology of degenerative diseases such as Alzheimer's disease, and Parkinson's disease are reported, plus other diseases of children and elderly, such as diabetes. Original articles, review articles, thematic dossiers and clinical reports are published. |
