

1. Record Nr.	UNINA9910144101603321
Titolo	Community acquired pneumonia [[electronic resource] ] : strategies for management // edited by Antoni Torres and Rosario Menendez
Pubbl/distr/stampa	Chichester, England ; ; Hoboken, NJ, : John Wiley & Sons, c2008
ISBN	0-470-77277-8 1-281-84105-6 9786611841058 0-470-77278-6
Descrizione fisica	1 online resource (287 p.)
Altri autori (Persone)	Torres MartiA (Antoni) MenendezRosario
Disciplina	616.2/41 616.241
Soggetti	Community-acquired pneumonia Pneumonia Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Community-Acquired Pneumonia; Contents; Preface; List of Contributors; 1 Epidemiology of Community-Acquired Pneumonia Outside Hospital; 2 Epidemiology of Adult Hospitalized Community-Acquired Pneumonia; 3 Microbial Aetiology and Antibiotic Resistances in Community-Acquired Pneumonia; 4 Microbiological Diagnosis of Community-Acquired Pneumonia; 5 Empirical Treatment of Community-Acquired Pneumonia: Current Guidelines; 6 Pathogen Directed Antimicrobial Treatment of Pneumonia; 7 General Pharmacological Considerations in Antibiotic Treatment of Community-Acquired Pneumonia 8 -Lactams in the Therapy of Community-Acquired Pneumonia 9 Macrolides and Ketolides; 10 Role of Fluoroquinolones in the Treatment of Community-Acquired Pneumonia; 11 Non-Responding Pneumonia; 12 Influenza and Pneumococcal Vaccination for Prevention of Community-Acquired Pneumonia in Immunocompetent Adults; 13 Adjunctive Therapy in Community-Acquired Pneumonia; Index

**Sommario/riassunto**

Community-Acquired Pneumonia (CAP) refers to pneumonia acquired outside of hospitals or extended-care facilities, and is distinct from Nosocomial or hospital-acquired pneumonia, which is a separate disease entity. It is one of the most common respiratory infections and presents one of the major health problems today, with an incidence that ranges from eight to fifty cases per thousand individuals each year. Mortality is still very high and yet the risk factors are very well known. Many of these are related to antibiotic treatment; delay in administration, inadequacy of empiric antibioti

Note generali	Bibliographic Level Mode of Issuance: Monograph

This book constitutes the refereed proceedings of the 20th International Working Conference on Requirements Engineering: Foundation for Software Quality, REFSQ 2014, held in Essen, Germany, in April 2013. The 23 papers presented were carefully reviewed and selected from 89 submissions. The REFSQ conference is organised as a three-day symposium with two days devoted to scientific papers presentation with a one-day industry track in-between. Both the industry and scientific presentations concern a variety of topics, which shows the liveliness of the requirements engineering domain. These topics are for instance: scalability in RE, communication issues, compliance with law and regulations, RE for self adaptive systems, requirements traceability, new sources of requirements, domain specific RE, Natural Language issues, and of course games. 'Games for RE and RE for Games' was the special topic of REFSQ 2014. This is materialized by a plenary session at the conference, and by a keynote given by Catherine Rolland, a serious games expert and project manager at KTM Advance, a French company specialized in serious games.
