Sommario/riassunto

This monograph is a comprehensive expose of the disorder vitiligo. The book introduces the topic with a presentation about its cultural effects in the Middle East where vitiligo is exceptionally disabling to the affected person. Nehru as Prime Minister of India stated that vitiligo was a major impediment to the successful development of India. The book includes sections on the definition of vitiligo based on a consensus of world experts on vitiligo. There is a complete description of its clinical manifestations including the extracutaneous sites by world experts.
