Amnesty Law in South Africa: Assertion of an Amnesty Exception to the General Prohibition of Crimes against Humanity / Faustin Z. Ntoubandi -- Chapter 7. International Law and the Rejection of the Amnesty Exception Argument / Faustin Z. Ntoubandi -- Chapter 8. General Concluding Assessment and Suggestions / Faustin Z. Ntoubandi -- Bibliography / Faustin Z. Ntoubandi -- Index / Faustin Z. Ntoubandi.
Sommario/riassunto	Much of the recent scholarly writings and debates on amnesty have revolved around its lawfulness, when granted in respect of the most serious crimes under international law committed in the context of civil armed conflicts. The inconclusiveness of international law on this issue - with positive international law and opinio juris calling for criminal

prosecution, and State's practice favouring practical political solutions - does nothing more than deepen the confusion already affecting the international legality of national amnesties. Building on emerging trends in State's practice, this book attempts to clarify the question of the legality of national amnesties for crimes against humanity by suggesting a compromised legal framework within which amnesty and accountability can both be accommodated.

2. Record Nr.	UNISA996203966903316
Titolo	Pediatric hematology // edited by Robert J. Arceci, Ian M. Hann, Owen P. Smith ; foreword by A. Victor Hoffbrand

Sommario/riassunto

Pediatric Hematology is a comprehensive and succinct referenced text on the diagnosis and treatment of blood diseases in childhood. It provides a ready source of reference for all the conditions likely to be encountered in day-to-day clinical practice. For each condition, the authors give helpful advice on differential diagnoses and clinical management. This third edition has been extensively updated throughout, in light of recent developments in this rapidly advancing area of medicine. A well established textbook on the diagnosis and treatment of blood disorders in chil
