Descrizione fisica	1 online resource (193 p.)
Classificazione	44.04
Altri autori (Persone)	WoodNeil
Disciplina	362.1072
Soggetti	Health Health services administration Health Services Research Medical sciences Research Research Design
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Book Cover; Title; Contents; List of figures; List of tables; Preface; Acknowledgements; Before you start; Matters ethical and otherwise; Different questions, different designs; Choosing a sample; There are more questions than answers; Working in the lab; Getting to grips with stats; Not everything that counts; Do you, Mr Jones ?; Qualitative studies; Using qualitative analysis software; Surfin' safari; Writing your proposal; Carrying out a research project; Writing your project report; Telling it like it was; Putting together a critical analysis; I know there's an answer; Postscript Appendix I: Choosing and using a computer for researchAppendix II: Internet addresses to get started; Appendix III: Table of random numbers; References; Index

The Health Project Book is a practical and detailed guide to all aspects of conducting a research project in health. It is relevant to anyone working in the health field who needs to design a study, collect the data, analyse the findings and write up a report. Clear advice and examples are given in each of these areas. Case studies illustrate the use of:

- * CD-Rom Facilities
- * the Cochrane database on the world wide web
- * qualitative analysis software.

Individual chapters cover:

- * ethical considerations
- * the selection of samples
- * questionnaire design
- * work
