Kuttner -- Spectacle and political culture in the Roman republic / Harriet I. Flower -- The Roman republic and the French and American revolutions / Mortimer N.S. Sellers.
Sommario/riassunto	The Cambridge Companion to the Roman Republic examines all aspects of Roman history and civilization from 509-49 BC. The key development of the republican period was Rome's rise from a small city to a wealthy metropolis and international capital of an extensive Mediterranean empire. These centuries produced the classic republican political system and the growth of a world empire. They also witnessed the disintegration of this system under the pressure of internal dissension and boundless ambition of its leading politicians. In this Companion volume, distinguished European and American scholars present a variety of lively approaches to understanding the political, military, and social aspects of Roman history, as well as its literary and

visual culture. Designed to be accessible to the general reader and to students, *The Cambridge Companion to the Roman Republic* will invite further exploration to a vital, formative period of Roman history and its later influence.
