1. Record Nr. UNISA996205503903316 Autore Brown Jack <1955-> Titolo An introduction to plant breeding / / Jack Brown, Peter D.S. Caligari Pubbl/distr/stampa Oxford;; Ames, Iowa,: Blackwell Pub., 2008 Oxford:,: Blackwell Publishing,, 2008 **ISBN** 1-118-68522-9 1-299-46480-7 1-118-68523-7 1-4443-5770-0 Descrizione fisica 1 online resource (219 p.) Altri autori (Persone) CaligariP. D. S (Peter D. S.) Disciplina 631.5/2 631.52 Soggetti Plant breeding Selection (Plant breeding) Lingua di pubblicazione Non definito **Formato** Materiale a stampa Livello bibliografico Monografia Note generali Description based upon print version of record. Nota di bibliografia Includes bibliographical references and index. Nota di contenuto Modes of reproduction and types of cultivar -- Breeding objectives --Breeding schemes -- Genetics and plant breeding -- Predictions --Selection -- Alternative techniques in plant breeding -- Some practical considerations. Plants have been successfully selectively bred for thousands of years, Sommario/riassunto culminating in incredible yields, quality, resistance and so on that we see in our modern day crops and ornamental plants. In recent years the techniques used have been rapidly advanced and refined to include molecular, cell and genetic techniques. An Introduction to Plant Breeding provides comprehensive coverage of the whole area of plant breeding. Covering modes of reproduction in plants, breeding objectives and schemes, genetics, predictions, selection, alternative techniques and practical considerations. Each chapter is carefully laid out in a student friendly way and includes questions for the reader. The

book is essential reading for all those studying, teaching and

researching plant breeding.
