Sommario/riassunto

Clodomir Santos de Morais is to organizational and entrepreneurial literacy what his Brazilian confrere, Paulo Freire, is to ordinary literacy. This book introduces for the first time in English the experiences of grassroots development workers who have applied his ideas of the Organization Workshop and capacitation in highly diverse social settings. One of the most exciting aspects of de Morais's methods of working with the most marginalized sectors of society is their relevance not just to Third World countries, but also to Eastern Europe's economies in transition and the most deprived areas.
