

1. Record Nr.	UNINA9910452344003321
Autore	Ancheta Angelo N. <1960->
Titolo	Race, rights, and the Asian American experience [[electronic resource] /] / Angelo N. Ancheta
Pubbl/distr/stampa	New Brunswick, N.J., : Rutgers University Press, c2006
ISBN	1-281-24429-5 9786611244293 0-8135-4007-0
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (230 p.)
Disciplina	305.895073 342.73/0873
Soggetti	Asian Americans - Legal status, laws, etc Asian Americans - Civil rights Electronic books. United States Race relations
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 195-200) and index.
Nota di contenuto	Front matter -- Contents -- List of Tables -- Preface to the Second Edition -- Preface to the First Edition -- A Note on Terms -- Introduction: Neither Black nor White -- Chapter 1. Legacies of Discrimination -- Chapter 2. Discrimination and Antidiscrimination Law -- Chapter 3. Looking Like the Enemy -- Chapter 4. Race, Immigration, and Citizenship -- Chapter 5. Language and Legal Conformity -- Chapter 6. Race and Identity -- Chapter 7. Law and Racial Hierarchy -- Conclusion -- Notes -- Selected Bibliography -- Table of Cases Cited in the Text -- Index -- About the Author
Sommario/riassunto	In <i>Race, Rights, and the Asian American Experience</i> , Angelo N. Ancheta demonstrates how United States civil rights laws have been framed by a black-white model of race that typically ignores the experiences of other groups, including Asian Americans. When racial discourse is limited to antagonisms between black and white, Asian Americans often find themselves in a racial limbo, marginalized or unrecognized as full participants. Ancheta examines legal and social theories of racial discrimination, ethnic differences in the Asian American population,

nativism, citizenship, language, school desegregation, and affirmative action. In the revised edition of this influential book, Ancheta also covers post-9/11 anti-Asian sentiment and racial profiling. He analyzes recent legal cases involving political empowerment, language rights, human trafficking, immigrant rights, and affirmative action in higher education-many of which move the country farther away from the ideals of racial justice. On a more positive note, he reports on the progress Asian Americans have made in the corporate sector, politics, the military, entertainment, and academia. A skillful mixture of legal theories, court cases, historical events, and personal insights, this revised edition brings fresh insights to U.S. civil rights from an Asian American perspective.

2. Record Nr.	UNISA996208055503316
Titolo	Dolomites : a volume in honour of Dolomieu // edited by Bruce Purser, Maurice Tucker, and Donald Zenger
Pubbl/distr/stampa	Oxford, [England] : , : Blackwell Scientific Publications, , 1994 ©1994
ISBN	1-282-17159-3 9786612171598 1-4443-0407-0 1-4443-0408-9
Descrizione fisica	1 online resource (472 p.)
Collana	International Association of Sedimentologists ; ; Number 21
Disciplina	552.58 552/.58
Soggetti	Dolomite
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Dolomites: A Volume in Honour of Dolomieu; Contents; Introduction; Problems, progress and future research concerning dolomites and dolomitization; Dolomieu and the first description of dolomite;

Summary; Sabkha, Evaporitic and Reflux Dolomitization Models; Salina sedimentation and diagenesis: West Caicos Island, British West Indies; Mechanisms of complete dolomitization in a carbonate shelf: comparison between the Norian Dolomia Principale (Italy) and the Holocene of Abu Dhabi Sabkha; Changing dolomitization styles from Norian to Rhaetian in the southern Tethys realm  
Distribution, petrography and geochemistry of early dolomite in cyclic shelf facies, Yates Formation (Guadalupian), Capitan Reef Complex, USA Mixing-Zone and Seawater Dolomitization Models; Dolomitization by near-normal seawater? Field evidence from the Bahamas; Late Cenozoic dolomites of the Bahamas: metastable analogues for the genesis of ancient platform dolomites; Dolomitization caused by water circulation near the mixing zone: an example from the Lower Viséan of the Campine Basin (northern Belgium); Burial Dolomitization Models  
Burial dolomitization of the Middle Ordovician Glenwood Formation by evaporitic brines, Michigan Basin Petrographic, geochemical and structural constraints on the timing and distribution of postlithification dolomite in the Rhaetian Portoro ('Calcere Nero') of the Portovenere Area, La Spezia, Italy; Has burial dolomitization come of age? Some answers from the Western Canada Sedimentary Basin; Burial and hydrothermal diagenesis of Ordovician carbonates from the Michigan Basin, Ontario, Canada  
Progressive recrystallization and stabilization of early-stage dolomite: Lower Ordovician Ellenburger Group, west Texas Dolomite Reservoirs; Nature, origins and evolution of porosity in dolomites; Permeability and porosity evolution in dolomitized Upper Cretaceous pelagic limestones of Central Tunisia; Porosity evolution through hypersaline reflux dolomitization; Petrology and Geochemistry of Dolomites; Synthesis of dolomite and geochemical implications  
Discontinuous solid solution in Ca-rich dolomites: the evidence and implications for the interpretation of dolomite petrographic and geochemical data Rates of dolomitization: the influence of dissolved sulphate; Pervasive dolomitization of a subtidal carbonate ramp, Silurian and Devonian, Illinois Basin, USA; Dolomitization and Organic Matter; Organic matter distribution, water circulation and dolomitization beneath the Abu Dhabi Sabkha (United Arab Emirates); Burial dolomitization of organic-rich and organic-poor carbonates, Jurassic of Central Tunisia; Index

## Sommario/riassunto

This volume contains 23 state-of-the-art papers presented at the Dolomieu Conference on Carbonate Platforms and Dolomitization held in September 1991 in Ortisei, Italy. The conference was co-sponsored by the International Association of Sedimentologists (IAS) and the Society for Sedimentary Geology (SEPM), and marked the 200th anniversary of the 1791 paper by Deodat de Dolomieu describing dolomite in detail for the first time. The papers presented do not aim to give a complete review of the current state of the dolomitic art, but rather discuss important advances and gaps in our knowledge of d
