Papademetriou -- Satisfying Labour Needs in an Ageing Society / Georges Lemaitre -- Migrant Workers: Inevitability or Policy Choice? / Martin Ruhs and Bridget Anderson -- Intra-EU Labour Mobility after Eastern Enlargement and During the Crisis: Main Trends and Controversies / Bela Galgoczi and Janine Leschke -- Labour Migration from Central and Eastern Europe and the Implications for Integration Policy / Godfried Engbersen. |
| Sommario/riassunto      | Largely because of the European Union's two-phase expansion in 2004 and 2007, labor migration across the continent has changed significantly in recent years. Notably, the EU's policy of open borders has enabled a growing stream of workers to leave new member states in search of higher wages. As a result, the nature, scale, and direction of migration flows have changed dramatically. 'Making Migration Work' explores how policy can-and should-address these changes. In the process, this timely volume considers the future trajectory of a phenomenon that has become an increasingly sensitive political issue   |

in many European nations.
