1.	Record Nr.	UNISA996208659403316
	Titolo	Biomarkers in heart disease / / edited by James A. de Lemos
	Pubbl/distr/stampa	Malden, Massachusetts : , : Blackwell Publishing, , 2008 ©2008
	ISBN	1-283-51409-5 9786613826541 1-4443-0020-2 1-4443-0021-0
	Descrizione fisica	1 online resource (252 p.)
	Collana	AHA Clinical Series
	Disciplina	616.1/2075 616.12075
	Soggetti	Diseases - Risk factors Biochemical markers Heart - Diseases - Diagnosis Heart - Diseases Heart - Diseases - Molecular diagnosis Biochemical markers - Diagnostic use
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	"American Heart Association."
	Nota di bibliografia	Includes bibliographical references and index.
	Nota di contenuto	Contents; Contributors; Preface; Foreword; PART I Biomarkers for the Evaluation of Patients with Ischemic Heart Disease; 1 Protocols for diagnosing myocardial infarction; 2 Troponin and other markers of necrosis for risk stratification in patients with acute coronary syndromes; 3 Challenges interpreting cardiac troponin values; 4 Natriuretic peptides and inflammatory markers for risk stratification in patients with ischemic heart disease; 5 Novel markers in patients with suspected acute coronary syndromes; PART I I Biomarkers for Evaluation of Patients with Heart Failure 6 Use of natriuretic peptides in the diagnosis of heart failure7 Biomarkers for risk stratification in patients with heart failure; 8 Natriuretic peptides for disease monitoring in patients with chronic heart failure; PART I I I Biomarkers for Screening in Ambulatory

Sommario/riassunto	Biomarkers in Heart Disease is the first title in the AHA Clinical Series and is aimed at meeting the needs of clinicians, providing cardiologists, internists, emergency physicians, laboratorians, and other healthcare providers with a clear understanding of the role of biomarkers in contemporary cardiovascular medicine. The book covers both the strengths and pitfalls of currently available markers, and provides information on the most promising biomarkers that are likely to impact practice in the next few years. It is divided into four parts, organized around clinical scena
