| 1. Record Nr. | UNISA996208662103316 |
| Titolo | Allergy and allergic diseases [[electronic resource] /] / edited by A.B. Kay ... [et al.] ; foreword by K. Frank Austen |
| Pubbl/distr/stampa | Malden, Mass., : Blackwell, 2008 |
| ISBN | 1-282-03434-0 9786612034343 1-4443-0091-1 1-4443-0092-X |
| Edizione | [2nd ed.] |
| Descrizione fisica | 1 online resource (2108 p.) |
| Altri autori (Persone) | KayA. B |
| Disciplina | 616.23807 616.97 |
| Soggetti | Allergy Immunologic diseases |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Description based upon print version of record. |
| Nota di bibliografia | Includes bibliographical references and indexes. |
| Nota di contenuto | KAY 9781405157209.pdf; List of Contributors; Foreword; Preface; 1 Immunology of the Allergic Response; 1 Allergy and Hypersensitivity: History and Concepts; 2 Development of Allergy and Atopy; 3 T Cells and Cytokines in Asthma and; 4 Regulatory T Cells and Other Tolerogenic Mechanisms in Allergy and Asthma; 5 IgE and IgE Receptors; 6 Immunoglobulin Gene Organization and Expression and Regulation of IgE; 7 Environmental Factors in IgE Production; 8 Antigen-presenting Dendritic Cells and Macrophages; 9 Innate Immunity in Allergic Disease; 10 Signal Transduction in Allergic and Inflammatory Cells 2 Inflammatory Cells and Mediators 11 Mast Cells: Biological Properties and Role in Health and Allergic Diseases; 12 Eosinophils: Biological Properties and Role in Health and Disease; 13 Neutrophils: Biological Properties and Role in Health and Allergic Diseases; 14 Basophils: Biological Properties and Role in Allergic Diseases; 15 Leukocyte Adhesion in Allergic Inflammation; 16 Airway Epithelium; 17 Airway Vascularity in Asthma; 18 Fibroblasts and the Extracellular Matrix; 19 Immune Complexes and Complement: Their Role in Host Defense and |

in Disease; 20 Bradykinin Pathways and Allergic Disease
21 Chemokines22 Neurotrophins; 23 Neuropeptides; 24 Late-phase
Allergic Reactions in Humans; 3 Pharmacology; 25 Antihistamines; 26
Lipid Mediators: Leukotrienes, Prostanoids, Lipoxins, and Platelet-
activating Factor; 27 Theophylline and Isoenzyme-selective
Phosphodiesterase Inhibitors; 28 Adrenergic Agonists and Antagonists;
29 Cholinergic Antagonists; 30 Antileukotriene Agents; 31
Glucocorticosteroids; 32 Immunomodulating Drugs; 4 Physiology; 33
Physiologic Aspects of Asthma; 34 Aerosol Delivery Systems; 35
Bronchial Hyperresponsiveness; 36 Exercise-induced
Bronchoconstriction: Animal Models
37 Exercise-induced Bronchoconstriction: Human Models38 Sensory
and Autonomic Nervous System in Asthma and Rhinitis; 39 Mucus and
Mucociliary Clearance in Asthma and Allergic Rhinitis; 40 Biology of
Vascular Permeability; 41 Airway Smooth Muscle; 5 Allergens; 42
Biochemistry of Allergens and Recombinant Allergens; 43 Host
Responses to Allergens; 44 Allergen Extracts and Standardization; 45
Grass, Tree, and Weed Pollen; 46 Fungi as Allergens; 47 Dust Mites and
Asthma; 48 Animal Allergens; 49 Airborne Allergens and Irritants in the
Workplace
50 Allergens from Stinging Insects: Ants, Bees, and Vespids51
Cockroach Allergens, Environmental Exposure, and Asthma; 52 Food
Allergens; 53 Latex Allergy; 6 Animal Models of Asthma; 54 Primate
Models of Allergic Asthma; 55 Airway Remodeling in Small Animal
Models; 56 Are Animal Models of Asthma Useful?; 7 Etiology and
Pathology; 57 Genetics of Asthma and Atopic Dermatitis; 58
Epidemiology of Asthma, Atopy, and Atopic Disease; 59 The Allergy
March; 60 Outdoor Air Pollution and Allergic Airway Disease; 61 Indoor
Air Pollution; 62 Molecular Immunopathology of Allergic Disease
8 Diagnosis of Allergic Disease

Sommario/riassunto

Reserve your copy now This two volume book is an outstanding
reference source on all aspects of allergy and allergic diseases.
Covering virtually every allergic condition, from the immunological and
molecular basis of the allergic response to future trends in allergic
disease prevention, this new international editorial team (A.B.Kay, Jean
Bousquet, Pat Holt and Allen Kaplan) have completely revised and
updated the text, from both a scientific and clinical perspective.
References will continue to be added to the text until it goes to press
making this the most up-to-date bo
