

1. Record Nr.	UNISA996209433503316
Titolo	Gravitational and space biology bulletin : publication of the American Society for Gravitational and Space Biology
Pubbl/distr/stampa	Alexandria, VA, : American Society for Gravitational and Space Biology, ©1996-
ISSN	2332-7723
Disciplina	571
Soggetti	Space biology Gravity - Physiological effect Gravitation Space Flight Periodical Periodicals.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed Title from journal contents page (publisher's Web site, viewed May 8, 2006).

2. Record Nr.	UNINA9910373954303321
Titolo	Oncological Surgical Pathology // edited by Cesar A. Moran, Neda Kalhor, Annikka Weissferdt
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
ISBN	3-319-96681-2
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (XI, 2209 p. 2689 illus., 2626 illus. in color.)
Disciplina	617.07
Soggetti	Pathology Cancer - Treatment Radiology Surgery Cancer Therapy General Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Skin -- Soft Tissue -- Bone (Orthopedic Pathology) -- Selective Pathology of Intracular Tumors -- Tumors of the Ear and Temporal Bone -- Neoplasms of the Oral and Maxillofacial Region -- Tumors of the Salivary Gland -- Sinonasal and Skull Base Tumors -- Thyroid and Parathyroid Tumors -- Pathology of Head and Neck Tumors -- Thoracic Pathology -- Tumors of the Gastrointestinal System Including the Pancreas -- Tumors of the Liver, Gallbladder, Extrahepatic Bile Ducts, and Vaterian System -- Breast Pathology -- Gynecological Pathology -- Genitourinary Pathology (Including Adrenal Gland) -- Hematopathology -- Diagnostic Molecular Pathology.
Sommario/riassunto	This text provides the necessary tools and up-to-date information on the morphological approach and most current use of ancillary techniques in the diagnosis and treatment of malignant tumors. The work is divided by sub specialty areas so that the reader can easily obtain the information desired. Features of histopathological lesions are presented in each area, as well as an up-to-date use of the different immunohistochemical stains and molecular biology features,

when applicable, which are commonly used to determine treatment modalities. All sub specialty sections are written by sub specialty pathologists with experience in tumor pathology and who work in a cancer center. Each chapter is richly illustrated and properly referenced. Oncological Surgical Pathology will be of use not only for pathologists (including pathology residents and fellows), but also for oncological surgeons, oncologists and interventional radiologists.
