Sommario/riassunto

The most readable, most comprehensive book in its field, Clinical Gynecologic Oncology, 9th Edition is the leading reference for diagnosis and treatment of gynecologic cancers - a must-have reference for improving outcomes and providing effective care. A "who's who" list of contributing authors, under the editorial direction of Drs. Philip DiSaia and William Creasman, provides expert guidance on clinical presentations and management, now fully up to date with a brand-new design for faster, easier reference.
