

1. Record Nr.	UNISA996210409303316
Titolo	Micro and nano systems letters
Pubbl/distr/stampa	Heidelberg, Germany : , : Springer-Verlag, GmbH, , 2013-
ISSN	2213-9621
Descrizione fisica	1 online resource
Soggetti	Microtechnology Nanotechnology Periodicals.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed "Micro and Nano Systems Letters is affiliated with The Society of Micro and Nano Systems."
Sommario/riassunto	"Micro and Nano Systems Letters is an international open access journal published by SpringerOpen. The MNSL offers express online publication of short research papers containing the latest advances in micro and nano-scaled devices and systems. It also offers a rapid route for the international dissemination of high quality research findings from both the micro and nano communities. Manuscripts should report new and significant findings that represent recent advances and practical applications of micro and nano systems engineering."
