

1. Record Nr.	UNISA996210777403316
Titolo	Visualization in engineering
Pubbl/distr/stampa	Heidelberg, Germany : , : Springer-Verlag, GmbH, , 2013-
ISSN	2213-7459
Descrizione fisica	1 online resource
Soggetti	Engineering - Research Visualization Engineering design Periodicals.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed Each volume consists of several articles published throughout the volume year, numbered by volume and article number.
Sommario/riassunto	"The aim of Visualization in Engineering is to disseminate original and high quality research results on the visualization paradigms, models, technologies, and applications that have significant contributions to the advancement of all aspects of design and engineering. The journal is devoted to scholarly research on improving all aspects of design and engineering (including civil, mechanical, manufacturing, industrial, aerospace, etc.) through the applications of visualization technologies."
