

1. Record Nr.	UNISA996210818203316
Autore	Otto Martin
Titolo	Bounded variable logics and counting : a study in finite models
Pubbl/distr/stampa	[Place of publication not identified], : Springer, 1997
ISBN	3-662-21676-0
Edizione	[1st ed.]
Descrizione fisica	1 online resource (190 pages)
Collana	Lecture notes in logic Bounded variable logics and counting
Disciplina	511.3/3
Soggetti	Model theory Computational complexity Mathematics Physical Sciences & Mathematics Mathematical Theory
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Lecture Notes in Logic 9 Bounded Variable Logics and Counting A Study in Finite Models -- Bounded Variable Logics and Counting -- Copyright -- Preface -- Table of Contents -- 0. Introduction -- 1. Definitions and Preliminaries -- 2. The Games and Their Analysis -- 3. The Invariants -- 4. Fixed-Point Logic with Counting -- 5. Related Lindstrom Extensions -- 6. Canonization Problems -- 7. Canonization for Two Variables -- Bibliography -- Index.
