

1. Record Nr.	UNISA996211211803316
Autore	Spittell John A. <1925->
Titolo	Peripheral vascular disease for cardiologists [[electronic resource]] : a clinical approach / / John A. Spittell Jr
Pubbl/distr/stampa	Elmsford, N.Y., : Futura Oxford, : Blackwell, c2004
ISBN	1-280-21325-6 9786610213252 0-470-79481-X 0-470-75066-9 1-4051-4676-1
Descrizione fisica	1 online resource (144 p.)
Disciplina	616.131
Soggetti	Peripheral vascular diseases Cardiologists
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Peripheral Vascular Disease for Cardiologists; Contents; Foreword; Preface; 1 Occlusive peripheral arterial disease; 2 Aneurysmal disease; 3 Aortic dissection, penetrating atherosclerotic aortic ulcer, and intramural hematoma; 4 Arteritis; 5 Vasospastic disorders; 6 Venous disorders; 7 Leg edema; 8 Leg and foot ulcers; 9 Vascular clues to a diagnosis; 10 Some uncommon peripheral vascular disorders; Index
Sommario/riassunto	Cardiologists today must have adequate basic training in vascular medicine in order to care for patients with peripheral vascular diseases. However, the topic of peripheral vascular disease has been inadequately addressed in most training programs, and particularly in the literature directed toward cardiologists. This text, the first of its kind, is intended to broaden their knowledge base and clinical skills in the recognition and management of the common peripheral vascular disorders occurring in cardiovascular practice. Peripheral Vascular Disease for Cardiologists will provide
