

1. Record Nr.	UNISA996211341803316
Titolo	Annals of solid and structural mechanics
Pubbl/distr/stampa	Berlin, : Springer-Verlag, ©2010-
ISSN	1867-6944
Descrizione fisica	1 online resource
Disciplina	620.1
Soggetti	Structural analysis (Engineering) Strength of materials Mechanics, Applied Théorie des constructions Résistance des matériaux Mécanique appliquée Periodicals.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed
Sommario/riassunto	This journal presents recent and creative advances dealing with any aspect of mechanics of materials and structures. It features original papers dealing with mechanical, mathematical, numerical and experimental analysis of structures and structural materials, both taken in the broadest sense. Annals of Solid and Structural Mechanics covers multi-scale, multi-field and multiple-media problems, including static and dynamic interaction. It also illustrates advanced and innovative applications to structural problems from science and engineering, including aerospace, civil, materials, mechanical engineering and living materials and structures. In addition, the journal includes special issues on specific topics as well as book reviews
