Extracting Resource Revenue: For countries with abundant oil, gas, and mineral deposits, formulating tax and spending policies can be tricky
The Elusive Revival: The expected boost in growth from natural resource booms is not yet happening; Capital Flight Risk: Natural-resource-rich countries risk capital flight as multinational corporations seek to avoid taxes; Eurasia's Next Frontier: For the Caucasus and Central Asia, natural resource wealth holds the key to achieving emerging market status
Picture This: Minerals of the Future: A secure, green, and innovation-filled future awaits us, but only with the help of rocks buried deep in the ground
A Bumpy Road Ahead: Latin America needs large and sustained productivity gains to maintain its recent strong growth; Back to Basics: What Is the Output Gap?; Closer to Home: Despite all the talk of globalization, business cycles seem to be becoming more regional; A Big Question on Small States: Can they overcome their size-related vulnerabilities and grow faster and more consistently?
Beyond the Household: Remittances that migrants send home to their families also have a major impact on the overall economy
Strength in Lending: Strong balance sheets help banks sustain credit to the economy during crises; Book Reviews

Sommario/riassunto

For the latest thinking about the international financial system, monetary policy, economic development, poverty reduction, and other critical issues, subscribe to *Finance & Development* (F&D). This lively quarterly magazine brings you in-depth analyses of these and other subjects by the IMF's own staff as well as by prominent international experts. Articles are written for lay readers who want to enrich their understanding of the workings of the global economy and the policies and activities of the IMF.
