

1. Record Nr.	UNISA996212363403316
Autore	Shorr Ronald I
Titolo	Drugs for the geriatric patient [[electronic resource] /] / Ronald I. Shorr, Angela B. Hoth, Nathan Rawls
Pubbl/distr/stampa	Edinburgh, : Saunders Elsevier, c2007
ISBN	1-4377-1035-2
Descrizione fisica	1 online resource (1404 p.)
Altri autori (Persone)	ShorrRonald I HothAngela B RawlsNathan
Disciplina	615.580846
Soggetti	Geriatric pharmacology Geriatrics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Front Cover; Drugs for the Geriatric Patient; Copyright Page; Dedication; Table of Contents; Introduction; Abbreviations; Medication use; Drugs; abacavir sulfate; abciximab; acamprosate calcium; acarbose; acebutolol hydrochloride; acetaminophen; acetaminophen; dichloralphenazone; isometheptene mucate; acetazolamide; acetic acid; acetylcysteine; acitretin; acyclovir; adalimumab; adefovir dipivoxil; adenosine; albuterol; alclometasone dipropionate; alefacept; alendronate sodium; alfuzosin hydrochloride; allopurinol; almotriptan malate; alprazolam; alprostadil (prostaglandin E1, PGE1) alteplase, recombinantaluminum chloride hexahydrate; aluminum salts group; amantadine hydrochloride; ambenonium chloride; amcinonide; amikacin sulfate; amiloride hydrochloride; aminocaproic acid; aminophylline/theophylline; aminosalicic acid; amiodarone hydrochloride; amitriptyline hydrochloride; amlexanox; amlodipine besylate; ammonium lactate; amobarbital sodium; amoxapine; amoxicillin; amoxicillin/clavulanate potassium; amphetamine sulfate; amphotericin B / amphotericin B cholesteryl / amphotericin B lipid complex / liposomal amphotericin B; ampicillin; ampicillin/sulbactam sodium amprenaviramyl nitrite; anagrelide; anakinra; anastrozole; anthralin; apraclonidine hydrochloride; aprepitant; argatroban; aripiprazole;

ascorbic acid; aspirin/acetylsalicylic acid/ASA; atazanavir sulfate; atenolol; atomoxetine hydrochloride; atorvastatin calcium; atovaquone; atropine sulfate; atropine sulfate; diphenoxylate hydrochloride; auranofin/aurothioglucose; aurothioglucose/gold sodium thiomalate; azathioprine; azelastine; azithromycin; aztreonam; bacitracin; baclofen; balsalazide disodium; becaplermin; beclomethasone dipropionate; belladonna alkaloids; belladonna and opium benazeprilbentoquatam; benzocaine; benzonatate; benztropine mesylate; benzylpenicilloyl polylysine; bepridil hydrochloride; betamethasone; betaxolol hydrochloride; bethanechol chloride; bimatoprost; biperiden hydrochloride; bisacodyl; bismuth subsalicylate; bisoprolol fumarate; bitolterol mesylate; bivalirudin; bosentan; bretylium tosylate; brimonidine tartrate; brinzolamide; bromfenac; bromocriptine mesylate; brompheniramine maleate; budesonide; bumetanide; buprenorphine; bupropion hydrochloride; buspirone hydrochloride; butalbital compound; butenafine hydrochloride; butoconazole nitrate butorphanol tartratecabergoline; caffeine; calcipotriene; calcitonin; calcitriol; calcium acetate/calcium carbonate/calcium chloride/calcium citrate/calcium gluconate/calcium gluconate; candesartan cilexetil; capreomycin sulfate; capsaicin; captopril; carbamazepine; carbamide peroxide; carbenicillin indanyl sodium; carbidopa; levodopa; carisoprodol; carteolol hydrochloride; carvedilol; cascara sagrada; castor oil; cefaclor; cefadroxil monohydrate; cefamandole nafate; cefazolin sodium; cefdinir; cefditoren pivoxil; cefepime hydrochloride; cefixime; cefoperazone sodium; cefotaxime sodium cefotetan disodium

Sommario/riassunto

This user-friendly, comprehensive drug reference, point-of-care usage -provides clinical information on more than 1000 drugs and their use in geriatric patients. In addition to dosage information and clinical indications, this reference also addresses the challenging issues of drug-drug and drug-disease interactions, polypharmacy, toxicity, compromised renal and hepatic function, withdrawal events, and more. Useful summary sections provide 'at a glance' conclusions, recommendations and clinical pearls. Get comprehensive guidance on all the drugs you could conceivably encounter in treati
