

1. Record Nr.	UNISA996212497303316
Autore	Krings Alexander
Titolo	Guide to tendrillate climbers of Costa Rican mountains [[electronic resource] /] / Alexander Krings, Richard R. Braham
Pubbl/distr/stampa	Ames, Iowa, : Blackwell Pub., 2005
ISBN	1-282-11242-2 9786612112423 0-470-29208-3 0-470-29002-1
Edizione	[1st ed.]
Descrizione fisica	1 online resource (192 p.)
Altri autori (Persone)	BrahamRichard R
Disciplina	582.1 582.18097286
Soggetti	Climbing plants - Costa Rica Forest plants - Costa Rica Mountain plants - Costa Rica
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 169-174) and index.
Nota di contenuto	Introduction -- Families -- Bignoniaceae -- Cucurbitaceae -- Fabaceae -- Loganiaceae -- Passifloraceae -- Polemoniaceae -- Polygonaceae -- Rhamnaceae -- Sapindaceae -- Smilacaceae -- Vitaceae.
Sommario/riassunto	Climbers, such as lianas and vines, are important constituents of tropical forests and perhaps the single most important physiognomic characteristic differentiating tropical from temperate forests, occurring on nearly 50% of forest trees in Central and South America. Despite their widespread nutritional and medicinal use, lianas remain poorly understood ecologically. Tendrillate Climbers offers comprehensive coverage of all of the tendrillate lianas of Costa Rica and most of the tendrillate lianas of Central America. This unique reference provides Excellent keys to families
