Descrizione fisica	1 online resource (200 p.)
Disciplina	333.7 338.9/27
Soggetti	Sustainable development Developpement durable Desarrollo sostenible
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	An overview -- The 'traditional economist's' view of the debate -- The 'environmental' arguments -- Some of the shades in-between -- Practical interpretations of the debate -- Missing elements in the debate -- Breaking down entrenched positions -- Redefining the debate.
Sommario/riassunto	Can there be a common definition of sustainable development? Views on sustainable development range from those of the mainstream economist to the hardened environmentalist - via many shades of green. This book offers a clear overview of the debates and sets out the various theories, providing an accessible introduction for all who now need to understand how sustainable development affects their working practices. The text is structured around key questions on the concept of sustainable development: Does it define a starting point, a process, or the end-goal? <
