

1. Record Nr.	UNISA996213503503316
Titolo	2001 IEEE International Conference on Acoustics, Speech and Signal Processing
Pubbl/distr/stampa	[Place of publication not identified], : I E E E, 2001
Descrizione fisica	1 online resource (4068 pages) : illustrations
Disciplina	006.454
Soggetti	Speech processing systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	v. 1. Speech processing 1 -- v. 2. Speech processing 2; industry technology track; design & implementation of signal processing systems; neural networks for signal processing -- v. 3. Image & multidimensional signal processing; multimedia signal processing -- v. 4. Signal processing for communications -- v. 5. Signal processing education; sensor array & multichannel signal processing; audio & electroacoustics -- v. 6. Signal processing theory & methods.
Sommario/riassunto	The topics in this text include: audio and electro-acoustics; design and implementation of DSP systems; image and multidimensional signal processing; speech processing; DSP chips and architectures; communication technologies; biomedical applications; and emerging DSP applications.
