| Nota di contenuto | The development of cardiothoracic surgical nursing -- Epidemiology of cardiac and respiratory diseases -- Applied respiratory and cardiac physiology -- Pre-operative preparation -- Intraoperative issues -- Post-operative care following cardiothoracic surgery -- Returning home. |
| Sommario/riassunto | Cardiothoracic nursing has undergone great change over the last decade. With the continuing improvement of surgical techniques, pharmacology and pre- and post-operative care, there have been many new initiatives and innovations in the nature and practice of this specialised sector of nursing. Rehabilitation and patient education are to name but a few of the areas where exciting new challenges and opportunities for cardiothoracic nurses have opened up. This book is a definitive and accessible text for cardiothoracic nurses. |
