

1. Record Nr.	UNISA996214617603316
Titolo	Ascites and renal dysfunction in liver disease [[electronic resource]] : pathogenesis, diagnosis, and treatment / / edited by Pere Gines ... [et al.]
Pubbl/distr/stampa	Malden, Mass. ; ; Oxford, : Blackwell Publishing, 2005
ISBN	1-280-19672-6 9786610196722 0-470-79930-7 0-470-98747-2 1-4051-4370-3
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (466 p.)
Altri autori (Persone)	GinesPere
Disciplina	616.3/62 616.362
Soggetti	Liver - Diseases - Complications Ascites Kidneys - Diseases
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Extracellular fluid volume homeostasis / Brian D. Poole, William T. Abraham, and Robert W. Schrier -- Physiology of the renal circulation / Roland C. Blantz and Francis C. Gabbai -- Physiology of the gastrointestinal circulation / Thomas Petnehazy, Thorsten Vowinkel, and D. Neil Granger -- The renin-angiotensin-aldosterone system in cirrhosis / Mauro Bernardi and Marco Domenicali -- The sympathetic nervous system in cirrhosis / Francis J. Dudley and Murray D. Esler -- Atrial natriuretic peptide and other natriuretic factors in cirrhosis / Giorgio La Villa and Giacomo Laffi -- Arachidonic acid metabolites and the kidney in cirrhosis / Silvia Ippolito and Kevin P. Moore -- Nitric oxide and systemic and renal hemodynamic disturbances in cirrhosis / Manuel Morales-Ruiz and Wladimiro Jimenez -- Endothelin and systemic, renal, and hepatic hemodynamic disturbances in cirrhosis / Veit Gulberg and Alexander L. Gerbes -- Carbon monoxide and the heme oxygenase system in cirrhosis / Richard W. Lambrecht, Mercedes

Fernandez, Ying Shan, and Herbert L. Bonkovsky -- The systemic circulation in cirrhosis / Søren Møller and Jens Henriksen -- The splanchnic circulation in cirrhosis / Jaime Bosch and Juan Carlos Garcia-Pagan -- Physiology of hepatic circulation in cirrhosis / Roberto J. Groszmann and Mauricio R. Loureiro-Silva -- Alterations of hepatic and splanchnic microvascular exchange in cirrhosis : local factors in the formation of ascites / Jens H. Henriksen and Søren Møller -- The heart in cirrhosis / Hongquin Liu and Samuel S. Lee -- Pathogenesis of sodium retention in cirrhosis : the arterial vasodilation hypothesis of ascites formation / Patricia Fernandez de la Llama, Pere Gines, and Robert W. Schrier -- Experimental models of cirrhosis and ascites / Joan Claria and Wladimiro Jimenez -- Medical treatment of ascites in cirrhosis / Paolo Angeli and Angelo Gatta -- Paracentesis for cirrhotic ascites / Rosa Maria Morillas, Justiniano Santos, Silvia Montoliu, and Ramon Planas -- Transjugular intrahepatic portosystemic shunt (TIPS) for the management of refractory ascites in cirrhosis / Guadalupe Garcia-Tsao -- Prognosis of patients with cirrhosis and ascites / Monica Guevara, Andres Cardenas, Juan Uriz, and Pere Gines -- Liver transplantation for patients with cirrhosis and ascites / Antoni Rimola, Miguel Navasa, Luis Grande, and Juan-Carlos Garcia-Valdecasas -- A practical approach to treatment of patients with cirrhosis and ascites / Andres Cardenas and Pere Gines -- Etiology, diagnosis, and management of non-cirrhotic ascites / Egbert Frick and Jurgen Scholmerich -- Pathogenesis of hyponatremia : the role of arginine vasopressin / San-e Ishikawa and Robert W. Schrier -- Management of hyponatremia in cirrhosis / Andres Cardenas and Pere Gines -- Pathogenesis of renal vasoconstriction in cirrhosis / Monica Guevara, Rolando Ortega, Pere Gines, and Juan Rodes -- Hepatorenal syndrome in cirrhosis : clinical features, diagnosis, and management / Vicente Arroyo, Carlos Terra, Aldo Torre, and Pere Gines -- Glomerular disease in cirrhosis / Brian D. Poole, Robert W. Schrier, and Alkesh Jani -- Drug-induced renal failure in cirrhosis / Francesco Salerno and Salvatore Badalamenti -- Clinical disorders of renal function in acute liver failure / John G. O'Grady -- Renal dysfunction in obstructive jaundice / Antonio Sitges-Serra and Javier Padillo -- Experimental models of spontaneous bacterial peritonitis / Agustin Albillos, Antonio de la Hera, Melchor Alvarez-Mon -- Pathogenesis and clinical features of spontaneous bacterial peritonitis / Jose Such, Carlos Guarner, and Bruce Runyon -- Treatment and prophylaxis of spontaneous bacterial peritonitis / Alejandro Blasco Pelicano and Miguel Navasa.

Sommario/riassunto

There has been very little written on the interaction of the liver and kidney. This book addresses the increasing incidence and significance of diseases, such as ascites, renal dysfunction, cirrhosis and hypertension where both organs are involved. This textbook is essential, even for confirmed practitioners and contains current information regarding treatment and therapy for patients with cirrhosis and ascites, clearly and effectively presented by the top international experts within this field. The second edition is entirely revised and updated and places greater emphasis on th
