

1. Record Nr.	UNISA996214690603316
Titolo	Architectural management [[electronic resource]] : international research and practice / / edited by Stephen Emmitt, Matthijs Prins, Ad den Otter
Pubbl/distr/stampa	Oxford ; ; Ames, IA, : Blackwell, 2009
ISBN	1-282-37139-8 9786612371394 1-4443-1219-7 1-4443-1218-9
Descrizione fisica	1 online resource (346 p.)
Altri autori (Persone)	EmmittStephen PrinsMatthijs OtterAd den
Disciplina	712.3 712/.3
Soggetti	Architectural practice - Management Architectural design
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Architectural Management; Contributors; Foreword; Introduction; Part OneValuing Design; Chapter OneArchitectural Value; Introduction; Value; On the cognition and creation of post-modernvalue and its management; The language complexity ofmodern construction; Modelling architectural value; Reflection and conclusions; References; Chapter TwoRisk Management andCross-Cultural LeadershipIntelligence; Introduction; Aspects of risk; Relationships and contract structures; Cross-cultural leadership intelligence; Risk maps; Conclusion; References Case Study AExploring the Value Universe:A Values-Based Approach toDesign ManagementIntroduction; Background; Conceptual framework - the value universe; The values-based model; The facilitated workshop sequence; The role of the process facilitator; Discussion and conclusions; References; Part TwoCommunicating Design Values; Chapter ThreeResearching InterpersonalCommunication in AEC

Projects; Introduction; Observing bona fide groups; Research method; Results; Concluding comments; References; Chapter Four

Effectiveness of Asynchronous and Synchronous Design Team Communication

Introduction Available communication means and tools; Properties of communication means and tools; Communicating design; Concluding comments; References; Case Study B

Architectural Design Management Using a Project Web; Introduction; The use of a project website; Reflections; Conclusions; Part Three

Design Management; Chapter Five

Collaborative Architectural Design Management; Introduction; Design management: an overview; Managing collaborative design in multi-architect projects; Trends in the building industry and future challenges for design management; Concluding remarks; References

Chapter Six

Concurrent Design: A Model for Integrated Product Development

Introduction; Concurrent building design; The case studies; Discussion and conclusion; References; Case Study C

Design Management Tools for Concurrent Construction; Introduction; Leading philosophies and strategies; Developed strategies and tools; Method: case studies; Case Study 1: Biomedicum 2; Case Study 2: The Porthania building; Discussion and conclusions; Future challenges and opportunities; Acknowledgements; References; Part Four

Inclusive Design; Chapter Seven

Management Tools for Sustainable and Adaptive Building Design

Introduction

How do sustainable design tools facilitate more inclusive design processes?; Tools for sustainable and adaptive design; Building for climate change?; Conclusion; References; Chapter Eight

User Involvement and the Role of Briefing; Introduction; User involvement; The role of briefing and user involvement; Accessibility for users with special needs; Business and building processes; Concluding comments; References; Case Study D

Patient Focus Throughout the Process: The Case of St. Olav's University Hospital; Introduction; Case study methodology; Vision and main objectives of the project

Establishing an architectural design framework and project guidelines

Sommario/riassunto

Architectural Management represents the state of the art of research and practice in the field and includes contributions from leading international figures. The book looks back at over a decade of research into architectural management, considers the present challenges and opportunities, and looks to the future. You'll find a review of earlier work and developments as well as a focus on new research areas. The book is divided into six sections representing topical themes, each section contains two research-based chapters and one practical case study. Case studies are from six European
