| 2. Record Nr. | UNINA9910783445903321 |
| Autore | Smith Ricky |
| Titolo | Lean maintenance [[electronic resource]] : reduce costs, improve quality, and increase market share / / Ricky Smith and Bruce Hawkins |
| Pubbl/distr/stampa | Amsterdam ; ; Boston, : Elsevier Butterworth Heinemann, c2004 |
| ISBN | 1-4175-3732-9 1-281-00984-9 9786611009847 0-08-047890-5 |
| Descrizione fisica | 1 online resource (301 p.) |
| Collana | Life cycle engineering series Plant engineering |
| Altri autori (Persone) | HawkinsBruce |
| Disciplina | 658.5 |
| Soggetti | Production management Manufacturing processes Just-in-time systems |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Description based upon print version of record. |
| Nota di bibliografia | Includes bibliographical references and index. |
| Nota di contenuto | Preliminaries; 1 Common Ground; 2 Goals and Objectives; 3 Total Productive Maintenance (TPM); 4 Pre-Planning for Lean Maintenance; 5 Launching the Master Plan (POA&M); 6 Mobilizing and Expanding the Lean Transformation; 7 Sustaining Lean- Long-Term Execution; Appendix A Checklists and Forms; Appendix B Documentation Examples; Appendix C Articles of Interest; Glossary; Index |
| Sommario/riassunto | What is ""Lean?"" Whether referring to manufacturing operations or maintenance, lean is about doing more with less: less effort, less space, fewer defects, less throughput time, lower volume requirements, less capital for a given level of output, etc. The need to provide the customer more value with less waste is a necessity for any firm wanting to stay in business, especially in today's increasingly global market place. And this is what lean thinking is all about. Lean Operations are difficult to sustain. More Lean Manufacturing Plant Transformations have been abandoned than have achieved. |
