Sommario/riassunto	Profiles in Cardiac Pacing and Electrophysiology is a collection of short biographies of scientists and physicians who have played (or still play) a significant role in improving diagnosis and therapy of heart rhythm disturbances including electrophysiology and pacing. Altogether, approximately 250 remarkable individuals are described. Not only is the book filled with biographies of past pioneers of rhythmology, some of whom lived long ago, but it also includes many contemporary rhythmologists. In addition to these biographies, it contains:An extensive tabl
