

1. Record Nr.	UNISA996217491303316
Titolo	Practical transfusion medicine [[electronic resource] /] / edited by Michael F. Murphy, Derwood H. Pamphilon
Pubbl/distr/stampa	Malden, Mass., : Blackwell Pub., 2005
ISBN	1-280-19705-6 9786610197057 0-470-98841-X 1-4051-4372-X
Edizione	[2nd ed.]
Descrizione fisica	1 computer resource (469 p.) : ill. (some col.)
Altri autori (Persone)	MurphyMichael F (Michael Furber) PamphilonDerwood H
Disciplina	615/.39
Soggetti	Blood - Transfusion
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Essential immunology for transfusion medicine / Willem H. Ouwehand and Tim B. Wallington -- Human blood group systems / Geoff Daniels -- Human leucocyte antigens / Cristina V. Navarrete -- Platelet and neutrophil antigens / David L. Allen ... [et al.] -- The effective and safe use of blood components / Brian McClelland and Tim Walsh -- Bleeding associated with trauma and surgery / Beverley J. Hunt -- Prenatal and childhood transfusions / Irene Roberts -- Haematological disease / Michael F. Murphy and Simon J. Stanworth -- Transfusion strategies in organ transplant patients / Derwood H. Pamphilon -- Inherited and acquired coagulation disorders / Joanne E. Joseph and Samuel J. Machin -- Uses of intravenous immunoglobulin / David J. Unsworth and Tim B. Wallington -- Haemolytic transfusion reactions / Sue Knowles and Geoff Poole -- Febrile reactions and transfusion-related acute lung injury / Michael F. Murphy and Sheila MacLennan -- Urticarial and anaphylactic reactions / David J. Unsworth -- Bacterial contamination / Patricia Hewitt -- Post-transfusion purpura / Michael F. Murphy -- Immunomodulation and graft-versus host disease / Lorna M. Williamson and Cristina V. Navarrete -- Transfusion-transmitted infections / Alan D. Kitchen and

John A.J. Barbara -- Variant Creutzfeldt-Jakob disease / Marc L. Turner  
-- Donors and blood collection / Liz Caffrey and Moji Gesinde -- Blood  
donation testing and the safety of blood supply / David Wenham and  
Simon J. Stanworth -- Production and storage of blood components /  
Lorna M. Williamson and Rebecca Cardigan -- Medicolegal aspects /  
Patricia E. Hewitt -- Blood transfusion in hospitals / Sue Knowles and  
Geoff Poole --  
Autologous transfusion / Dafydd Thomas -- Tissue banking / Deirdre  
Fehily and Ruth M. Warwick -- Cord blood banking / Ruth M. Warwick,  
Sue Armitage and Deidre Fehily -- Therapeutic apheresis / Tim B.  
Wallington and David J. Unsworth -- Blood substitutes / Chris V.  
Prowse and David J. Roberts -- Cytokines in transfusion practice /  
Derwood Pamphilon -- Haemopoietic stem cell processing and storage  
/ David H. McKenna and Mary E. Clay -- Haemopoietic stem cell  
transplantation and immunotherapy / Ian M. Franklin -- Gene therapy /  
Colin G. Steward and Marine Cavazzana-Calvo -- Recombinant  
antibodies and proteins / Marion Scott -- Blood transfusion in a global  
context / David Roberts ... [et al.] -- The design of interventional trials  
in transfusion medicine / Paul Hebert, Alan Tinmouth, and Dean  
Ferguson -- Getting the most out of the evidence for transfusion  
medicine / Simon J. Stanworth, S.J. Brunskill and Chris J. Hyde -- The  
future of transfusion medicine / Walter Sunny Dzik.
