| Sommario/riassunto      | This text attempts to offer an account of applied linguistics, and in doing so to provide a consideration of applied linguistics as an independent and coherent discipline that marries practical experience and theoretical understanding of language development and language in use.                                                  |
