An analysis of organisational routines in general practices; Index
Sommario/riassunto	This volume considers the implications of national and international

social, political, and economic realities for health and health care provision to minority ethnic groups. Addresses continuity and change in debates on ethnicity, health, and health care. Considers the implications of national and international social, political, and economic realities for health and health care provision to minority ethnic groups. Represents the experiences of settled and new minority ethnic groups, refugees, and asylum seekers across the world. Includes international comparisons between Caribbean and European contexts.
