

1. Record Nr.	UNISA996218149803316
Titolo	Revista brasileira de fisioterapia
Pubbl/distr/stampa	São Carlos, São Paulo, : Departamento de Fisioterapia da Universidade Federal de São Carlos Sao Carlos, Sao Paulo : , : Departamento de Fisioterapia da Universidade Federal de Sao Carlos, , 1996
ISSN	1809-9246
Descrizione fisica	1 online resource
Disciplina	615.82072
Soggetti	Physical Therapy Modalities Physical therapy - Study and teaching Physical therapy - Research Physical therapy - Study and teaching - Brazil Physical therapy - Research - Brazil Periodical Periodicals. Brazil
Lingua di pubblicazione	Portoghese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed
Nota di contenuto	Il Forum nacional de pesquisa e pos-graduacao stricto sensu em fisioterapia--Electromyographic and kinetic strategies to control movements--Localized muscle fatigue: review of three experiments -- Types of grip and wrist movements during load handling activities-- Musculoskeletal symptoms in Elementary School teachers--Comparison between inferential measurements of lower limb edema utilizing the Leg-O-Meter and water displacement--Analysis of heart rate response during eccentric isokinetic exercise of knee extensor muscle group -- Transcutaneous electrical stimulation of the diaphragm improves the metabolic conditions of respiratory muscles in rats--The effects of the use of orthoses on the functional mobility of children with cerebral palsy--Effect of hip rotation on patellofemoral pain syndrome -- Evaluation of the static balance lower limb amputees by means of computerized biophotogrammetry--Performance in daily living

activities and mobility among institutionalized elderly people with cognitive impairments: pilot study--Effects of conventional chest physical therapy versus increased expiratory flow on oxygen saturation, heart rate and respiratory rate in premature infants following extubation--Adaptation of Threshold® IMT for endurance tests on inspiratory muscles--Effects of therapeutic ultrasound on injuries due to crushing of the sciatic nerve in rats: functional evaluation of gait--Quality of life assessment following heart surgery, during phase I rehabilitation, through MOS SF-36 questionnaire--Influence of a long-term physical activity program on hand muscle strength and body flexibility among elderly women--Physiotherapeutic evaluation of masticatory and respiratory systems in a patient with Otodental Syndrome: a case study.

Sommario/riassunto

The Brazilian Journal of Physical Therapy (BJPT) is the official publication of the Brazilian Society of Physical Therapy Research and Graduate Studies (ABRAPG-Ft). It publishes original research articles on topics related to the areas of physical therapy and rehabilitation sciences, including clinical, basic or applied studies on the assessment, prevention, and treatment of movement disorders.
