Pubbl/distr/stampa	Utah State University, University Libraries, 2001 Logan, Utah : , : Utah State University Press, , 2001 ©2001
ISBN	0-87421-454-8
Descrizione fisica	1 online resource (297 pages) : digital, PDF file(s)
Altri autori (Persone)	BradyErika <1952->
Disciplina	398/.353
Soggetti	Medical anthropology Healing Traditional medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Acknowledgments; Prologue; 1 Introduction; 2 Understanding Folk Medicine; Places and Practitioners; 3 Invisible Hospitals: Botanicas in Ethnic Health Care; 4 The Poor Man's Medicine Bag: The Empirical Folk Remedies of Tillman Waggoner; Communication and the Interplay of Systems; 5 Integrating Personal Health Belief Systems: Patient-Practitioner Communication; 6 Competing Logics and the Construction of Risk; The New Age Dilemma; 7 The New Age Sweat Lodge; 8 Evergreen: The Enduring Voice of a Nine-Hundred-Year-Old Healer; Taking It In: The Observer Healed 9 Reflections on the Experience of Healing:Whose Logic? Whose Experience?10 The Hozho Factor: The Logic of Navajo Healing; Further Investigation; Bibliography: Folklore and Medicine; Contributors; Index
Sommario/riassunto	Scholars in folklore and anthropology are more directly involved in various aspects of medicine—such as medical education, clinical pastoral care, and negotiation of transcultural issues—than ever before. Old models of investigation that artificially isolated "folk medicine," "complementary and alternative medicine," and "biomedicine" as mutually exclusive have proven too limited in exploring the real-life complexities of health belief systems as they observably exist and are

applied by contemporary Americans. Recent research strongly suggests that individuals construct their health belief systems from diverse sources of authority, including community and ethnic tradition, education, spiritual beliefs, personal experience, the influence of popular media, and perception of the goals and means of formal medicine. *Healing Logics* explores the diversity of these belief systems and how they interact—in competing, conflicting, and sometimes remarkably congruent ways. This book contains essays by leading scholars in the field and a comprehensive bibliography of folklore and medicine.
