

1. Record Nr.	UNISA996218592903316
Autore	Ellis Harold <1926->
Titolo	Anatomy for anaesthetists [[electronic resource]] / Harold Ellis, Stanley Feldman, William Harrop-Griffiths ; with a chapter on the Anatomy of pain contributed by Andrew Lawson
Pubbl/distr/stampa	Malden, Mass., : Blackwell Science, c2004
ISBN	0-470-75504-0 1-282-12378-5 9786612123788 1-280-19713-7 9786610197132 0-470-75586-5 1-4051-2817-8
Edizione	[8th ed.]
Descrizione fisica	1 online resource (368 p.)
Altri autori (Persone)	FeldmanStanley A Harrop-GriffithsWilliam
Disciplina	611/.0024617
Soggetti	Human anatomy Anesthesiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	The mouth -- The nose -- The pharynx -- The larynx -- The trachea -- The main bronchi -- The pleura -- The lungs -- The pericardium -- The heart -- Developmental anatomy -- The vertebrae and sacrum -- The spinal meninges -- The spinal cord -- The spinal nerves -- The cervical plexus -- The brachial plexus -- The thoracic nerves -- The lumbar plexus -- The sacral and coccygeal plexuses -- The sympathetic system -- The parasympathetic system -- The olfactory nerve -- The optic nerve -- The oculomotor nerve -- The trochlear nerve -- The trigeminal nerve -- The abducent nerve -- The facial nerve -- The auditory nerve -- The glossopharyngeal nerve -- The vagus nerve -- The accessory nerve -- The hypoglossal nerve -- Classification of pain -- Peripheral receptors and afferent fibres -- The spinal cord and central projections -- Modulation of pain -- The gate control theory of pain -- The sympathetic nervous system and pain --

The thoracic inlet -- The diaphragm -- The intercostal spaces -- The abdominal wall -- The antecubital fossa -- The great veins of the neck -- The orbit and its contents -- The bony orbit -- The orbital foramina -- The subdivisions of the orbit -- The eyeball -- Contents of the eyeball -- The orbital muscles -- The fascial sheath of the eye -- The eyelids and conjunctiva -- The lacrimal apparatus.

Sommario/riassunto

This eighth edition is supported by the generous use of illustrations, including clear depictions of nerve and blood vessel paths. Anatomical areas of special interest to the anaesthetist are highlighted.
