

1. Record Nr.	UNISA996221539403316
Titolo	Clinical kidney journal
Pubbl/distr/stampa	Oxford, : Oxford University Press Oxford : , : Oxford University Press, , 2012
ISSN	2048-8513
Descrizione fisica	1 online resource
Disciplina	616.61
Soggetti	Kidneys - Diseases Nephrology Hemodialysis Kidneys - Transplantation Kidney Diseases Renal Replacement Therapy Periodicals. Periodical
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed
Nota di contenuto	Report from the Editorial Office -- Report from the Editorial Office -- Original Contributions -- Editorial Comment -- Treatment of atypical uraemic syndrome in the era of eculizumab -- Collagenofibrotic glomerulopathy-a review -- Pain syndrome with stress fractures in transplanted patients treated with calcineurin inhibitors -- Endothelin and the podocyte -- Clinical Cases -- Clinical Reports -- Rescue therapy with eculizumab in a transplant recipient with atypical haemolytic-uraemic syndrome -- Early treatment with eculizumab in atypical haemolytic uraemic syndrome -- Eculizumab in atypical haemolytic-uraemic syndrome allows cessation of plasma exchange and dialysis -- Undetectable serum calcidiol: not everything that glitters is gold -- Autosomal dominant polycystic kidney disease (ADPKD) is associated with coronary arterial dilatation in end-stage renal failure patients -- Spontaneous coronary artery dissection in polycystic kidney disease -- cANCA-associated aortitis -- Epstein-Barr

virus-associated nephrotic syndrome -- Infliximab as long-term maintenance in steroid-resistant and recurrent sarcoidosis in a renal transplant with central nervous system involvement -- Survival over 2 years of autosomal-recessive renal tubular dysgenesis -- Kidney light chain disease in patients with the acquired immunodeficiency syndrome.
