	Sommario/riassunto	While "getting it right" for kids in libraries can be a challenge—as rapid technology changes impact both library services and the needs and expectations of children—it is a goal that warrants serious attention. This visionary book by respected children's library specialist and advocate Virginia Walter is a call to action for libraries...to consider children as vital participants in the community, as well as serious readers and technology users. Children & Libraries: Getting it Right helps you to create a new vision statement, articulate heartfelt goals, and create glorious kid spaces in the l

	Sommario/riassunto	This book constitutes the proceedings of the 12th International Workshop on Algorithms and Computation, WALCOM 2018, held in Dhaka, Bangladesh, in March 2018. The 22 full papers presented were carefully reviewed and selected from 50 submissions. The papers cover diverse areas of algorithms and computation, such as approximation algorithms, computational geometry, combinatorial algorithms, computational biology, computational complexity, data structures, graph and network algorithms, and online algorithms.
