

1. Record Nr.	UNINA9910488710003321
Titolo	Integrative headache medicine : an evidence-based guide for clinicians // Lauren R. Natbony, Mark W. Green, editors
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2021] ©2021
ISBN	3-030-71513-2
Descrizione fisica	1 online resource (284 pages)
Disciplina	616.047
Soggetti	Headache - Treatment Cefalàlgia Terapèutica Medicina basada en l'evidència Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Intro -- Preface -- Contents -- Contributors -- Chapter 1: What Is Integrative Headache Medicine? -- What Is Integrative Medicine? -- What Is the Evidence for Integrative Medicine in Headache? -- Integrative Medicine for All Headache Patients? -- Potential Barriers to Implementing Integrative Medicine -- Approach to Integrative Headache Medicine in Practice -- References -- Chapter 2: Identifying and Treating Underlying Medical Illness -- Systemic Symptoms (S) -- Neurologic Signs and Symptoms (N) -- Sudden Onset (O) -- Onset in Older Age (O) -- Positional Quality (P) -- Pattern Change (P) -- References -- Chapter 3: Trigger Identification and Elimination -- Introduction -- Methodological Issues in Migraine Trigger Research -- Physiology of Migraine Triggers -- Prodrome -- Analyses of Migraine Triggers -- Specific Migraine Triggers -- Stress -- Female Hormones -- Environmental Conditions -- Sensory Stimuli -- Disorders of Homeostasis -- Caffeine -- Clinical Implications -- References -- Chapter 4: A Prescription for Exercise -- Introduction -- Pathophysiology of Exercise and Its Effect on Headache Disorders -- Designing an Exercise Program: A Prescription for Exercise -- Evidence

for Exercise in Migraine -- Exercise as a Trigger for Migraine -- Evidence for Exercise in Tension-Type Headache and Cervicogenic Headache -- Post-Traumatic Headache -- Conclusion -- References -- Chapter 5: Obesity, Weight Loss, and Nutrition in Headache Disorders -- Introduction -- Obesity and Its Link to Headache Disorders -- Dietary Trigger Identification -- The Most Common Dietary Triggers -- Chocolate -- Gluten -- Monosodium Glutamate -- Aspartame -- Histamine -- Nitrites -- Tyramine -- Caffeine -- Alcohol -- How to Identify Dietary Triggers -- Keep a Food Diary -- Template for Data Recording -- Dietary Trigger Elimination. Specific Diets and Their Influence on Headache Disorders -- High- and Low-Sodium Diets -- High-Folate Diet -- Low-Fat Diet -- High-Omega-3 and Low-Omega-6 Fatty Acid Diet -- Ketogenic Diet -- Low Glycemic Diet -- Hydration Versus Dehydration -- Dietary Consistency -- Clinical Approach to Diet -- Conclusion -- References -- Chapter 6: Headache and Sleep -- Introduction -- Anatomy of Sleep and Headache -- Anatomical and Pathophysiological Connections Between Headache and Sleep -- Thalamus -- Hypothalamus -- Brainstem -- Pharmacology of Headache and Sleep -- Adenosine -- Melatonin -- Orexin -- Nitric Oxide -- Specific Headache Disorders and Sleep -- Cluster Headache -- Hypnic Headache -- Tension-Type Headache -- Migraine -- Sleep Apnea Headache -- Specific Sleep Disorders and Headache -- Insomnia -- Cognitive Behavioral Therapy for Insomnia -- Sleep-Disordered Breathing -- Snoring -- Obstructive Sleep Apnea -- Respiratory Event-Related Arousals -- SDB Screening and OSA Diagnosis -- SDB Treatments -- Restless Leg Syndrome -- Sleep Bruxism -- Circadian Rhythm Disorders -- Parasomnias -- Evaluation and Treatment of Sleep Disorders in Headache Patients -- Step 1: Determine ICHD-3 Headache Diagnosis -- Step 2: Collect Sleep History for Awakening Headache in CM or CTTH -- Step 3: Identify and Treat Sleep Apnea Headache -- Step 4: Assess Sleep Disturbance and Insomnia in CM and CTTH -- Step 5: Consider Sleep Regulation in CM and CTTH -- Step 6: Assess for Psychiatric Comorbidity -- Step 7: Manage Sleep-Related Triggers in Episodic Migraine -- Conclusion -- References -- Chapter 7: Mind-Body Therapies -- Acupuncture -- Introduction -- Evidence -- Mechanism -- Patient Selection -- Treatment Experience -- Setting Expectations -- Massage -- Introduction -- What Is the Mechanism of Massage? -- The Evidence for Massage Therapy and Treatment of Headache. Recommendation for Patients Regarding Massage Therapy -- Tai Chi -- Introduction -- The Evidence -- How It Is Practiced -- Other Advantages of Tai Chi -- Yoga -- Introduction -- The Evidence -- The Benefits of Yogic Practice -- Introducing Patients to Yoga -- Behavioral Medicine -- Introduction -- Biofeedback -- What Is the Mechanism of Biofeedback? -- Treatment Course -- Progressive Muscle Relaxation -- What Is the Mechanism of Progressive Muscle Relaxation? -- Treatment Course -- Mindfulness Meditation -- What Is Mindfulness? -- How Do Mindfulness-Based Therapies Work? -- Conclusion -- References -- Chapter 8: Psychology of Headaches -- Introduction -- Psychology of Pain -- Personality Types -- Attachment Theory -- Broad Psychological Concepts of Pain -- Psychiatric Disorders -- Stress and Trauma -- Anxiety Disorders -- Mood Disorders -- Alcohol Use -- Somatoform Disorders -- Schizophrenia -- Treatment Approaches: Behavioral Interventions -- An Overview of Behavioral Interventions -- Indications for Behavioral Interventions -- Limitations of Behavioral Interventions -- Treatment Approaches: Pharmacological Interventions -- Monotherapy Versus Polytherapy -- Screening for Psychiatric Comorbidities -- Conclusion -- References -- Chapter 9:

Nutraceuticals -- Introduction -- Magnesium -- Riboflavin (Vitamin B2) -- Butterbur -- Coenzyme Q10 -- Melatonin -- Feverfew -- Vitamin D -- Vitamin E -- Boswellia serrata -- Aromatherapy/Essential Oils -- L-5-Hydroxytryptophan -- Vitamin B12/Folate -- Pyridoxine (Vitamin B6) -- Omega-3 Fatty Acids -- Ginkgolide B -- Ashwagandha -- Valerian Root -- Conclusions -- Summary of Nutraceuticals -- References -- Chapter 10: Neuromodulation -- Introduction -- Invasive Treatments -- Deep Brain Stimulation -- Occipital Nerve Stimulation -- Chronic Migraine -- Occipital Neuralgia -- Cluster Headache. Other Primary Headache Disorders -- Minimally Invasive Treatments -- Sphenopalatine Ganglion Stimulation (SPGS) -- Noninvasive Treatments -- Transcranial Magnetic Stimulation (TMS) -- Transcutaneous Supraorbital Neurostimulation (tSNS) -- Vagal Nerve Stimulator (VNS) -- Migraine -- Cluster Headache -- Other Primary Headaches -- Remote Electrical Neuromodulation (REN) -- Upcoming Techniques -- Conclusion -- References -- Chapter 11: Interventional Treatment of Head and Neck Pain -- Introduction -- Trigeminal Nerve and Trigeminal Ganglion -- Trigeminal Nerve and Trigeminal Ganglion Anatomy -- Trigeminal Ganglion Block Technique -- Trigeminal Ganglion Treatment Evidence -- Supraorbital Nerve (SON) and Supratrochlear Nerve (STN) Anatomy -- SON and STN Block Techniques -- SON and STN Treatment Evidence -- Infraorbital Nerve (ION) Anatomy -- ION Block Technique -- ION Treatment Evidence -- Zygomaticotemporal Nerve (ZTN) and Auriculotemporal Nerve (ATN) Anatomy -- ZTN and ATN Block Techniques -- ZTN and ATN Treatment Evidence -- Greater Occipital Nerve (GON), Lesser Occipital Nerve (LON), and Greater Auricular Nerve (GAN) Anatomy -- GON, LON, and GAN Block Techniques -- GON, LON, and GAN Treatment Evidence -- Cervical Medial Branch Blocks and Ablative Techniques -- Cervical Vertebrae Anatomy -- Neck Pain and Headache -- Cervical Medial Branch Block Technique -- Medial Branch Block Evidence -- Cervical Epidural Steroid Injection -- Cervical Epidural Technique -- Cervical Epidural for Neck Pain and Headache Evidence -- Trigger Points -- Trigger Point Anatomy -- Referral Patterns -- Trigger Point Injection Technique -- Treatment Modalities for Suspected Trigger Point-Associated Headache -- Sphenopalatine Ganglion -- Sphenopalatine Ganglion Anatomy and Pathophysiology -- SPG Block Techniques -- SPG Block Evidence -- SPG Blockade and Cluster Headache. SPG Blockade and Migraine -- SPG Blockade and Other Headache Disorders -- Stellate Ganglion -- Stellate Ganglion Anatomy -- SG Blockade Technique -- SG Blockade Evidence -- Temporomandibular Joint Disorders/Dysfunction (TMD) -- Temporomandibular Joint Anatomy -- Temporomandibular Dysfunction and Headache -- TMJ Block Technique -- TMD Treatment Evidence -- Spontaneous Intracranial Hypotension -- Spontaneous Intracranial Hypotension Anatomy -- Epidural Blood Patch in SIH -- References -- Chapter 12: Surgical Interventions -- Introduction -- History -- Occipital Nerve Stimulation -- Pathophysiology -- Technique -- Results -- Supraorbital/Infraorbital Nerve Stimulation -- Pathophysiology -- Indication -- Technique -- Results -- Supraorbital Nerve Decompression -- Pathophysiology -- Technique -- Results -- Sphenopalatine Ganglion Stimulation -- Pathophysiology -- Technique -- Results -- Deep Brain Stimulation -- Transcranial Magnetic Stimulation -- Pathophysiology -- Technique -- Trigeminal Neuralgia -- Microvascular Decompression -- MVD Technique -- Results -- Stereotactic Radiosurgery: Gamma Knife -- Indication -- Technique -- Results -- Radiofrequency Rhizotomy -- Indication -- Technique -- Results -- Glycerol Rhizotomy -- Indication -- Technique -- Results --

2. Record Nr.	UNISA996247933603316
Titolo	The Idea of race in Latin America, 1870-1940 [[electronic resource] /] / edited and with an introduction by Richard Graham ; with chapters by Thomas E. Skidmore, Aline Helg, and Alan Knight
Pubbl/distr/stampa	Austin, : University of Texas Press, c1990
ISBN	0-292-78888-6
Descrizione fisica	1 online resource (135 p. ) : ill. ;
Collana	Critical reflections on Latin America series
Altri autori (Persone)	GrahamRichard <1934-> SkidmoreThomas E HelgAline <1953-> KnightAlan <1946->
Disciplina	305.8/0098
Soggetti	Race Latin America Race relations Latin America Politics and government 1830-1948
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
