Nota di contenuto	Front matter -- Contents -- Illustrations -- Acknowledgments -- Abbreviations -- Introduction: On the Tension between Theology and Cult -- One. Issues in representing angels -- Two. Arguments against images of angels -- Three. Representing angels -- Four. The veneration of angels and their images -- Five. Apprehending the archangel Michael -- Conclusion -- Bibliography -- Index
Sommario/riassunto	Throughout the course of Byzantine history, Christian doctrine taught that angels have a powerful place in cosmology. It also taught that angels were immaterial, bodiless, invisible beings. But if that were the case, how could they be visualized and depicted in icons and other works of art? This book describes the strategies used by Byzantine artists to represent the incorporeal forms of angels and the rationalizations in defense of their representations mustered by theologians in the face of iconoclastic opposition. Glenn Peers demonstrates that these problems of representation provide a unique

window on Late Antique thought in general.
