

1. Record Nr.	UNISA996248278103316
Autore	Roeder Philip G
Titolo	Where nation-states come from : institutional change in the age of nationalism // Philip G. Roeder
Pubbl/distr/stampa	Princeton, : Princeton University Press, 2007
ISBN	1-283-37993-7 9786613379931 1-4008-4296-4
Edizione	[Course Book]
Descrizione fisica	1 online resource (430 p.)
Disciplina	320.1
Soggetti	Nation-state Nationalism
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [365]-401) and index.
Nota di contenuto	pt. 1. The institutional origins of nation-states -- pt. 2. Processes: forging political-identity hegemonies -- pt. 3. Processes: escalation to nation-state crises -- pt. 4. Outcomes: crises and independence.
Sommario/riassunto	To date, the world can lay claim to little more than 190 sovereign independent entities recognized as nation-states, while by some estimates there may be up to eight hundred more nation-state projects underway and seven to eight thousand potential projects. Why do a few such endeavors come to fruition while most fail? Standard explanations have pointed to national awakenings, nationalist mobilizations, economic efficiency, military prowess, or intervention by the great powers. Where Nation-States Come From provides a compelling alternative account, one that incorporates an in-depth examination of the Russian Empire, the Soviet Union, and their successor states. Philip Roeder argues that almost all successful nation-state projects have been associated with a particular political institution prior to independence: the segment-state, a jurisdiction defined by both human and territorial boundaries. Independence represents an administrative upgrade of a segment-state. Before independence, segmental institutions shape politics on the periphery of an existing sovereign state. Leaders of segment-states are thus better positioned

than other proponents of nation-state endeavors to forge locally hegemonic national identities. Before independence, segmental institutions also shape the politics between the periphery and center of existing states. Leaders of segment-states are hence also more able to challenge the status quo and to induce the leaders of the existing state to concede independence. Roeder clarifies the mechanisms that link such institutions to outcomes, and demonstrates that these relationships have prevailed around the world through most of the age of nationalism.
