

1. Record Nr.	UNISA996258847303316
Titolo	Proceedings of the Institution of Civil Engineers Forensic engineering
Pubbl/distr/stampa	London, : ICE Pub., 2011-
ISSN	2043-9911
Descrizione fisica	1 online resource
Soggetti	Forensic engineering Structural failures - Investigation Structural engineering Ingénierie légale Pannes Science des matériaux Gestion du risque Periodicals.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed
Sommario/riassunto	"Research and practice papers are sought on traditional or modern forensic engineering topics such as, but not limited to: reports on the investigation and assessment and remediation of serviceability or ultimate limit state damage caused by normal or exceptional actions such as blast, explosion, fire, flood, wave, landslide, corrosion, fatigue and/or deficiencies in risk management, procurement, design and construction. Topics covered also include research and education best practice in forensic engineering and structural pathology, new understanding of the application of engineering principles as a result of unexpected unsatisfactory performance, innovative techniques or equipment used in forensic engineering investigations, and the contribution of forensic engineering and investigation techniques to the role of the expert witness."--Pub. desc
