

1. Record Nr.	UNISA996278297803316
Titolo	IEEE Std 1521-2003 (Trial Use): : IEEE Trial-Use Standard for Measurement of Video Jitter and Wander / / Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	New York, NY : , : IEEE, , 2004
Descrizione fisica	1 online resource (vi, 14 pages)
Disciplina	621.38216
Soggetti	Synchronous data transmission systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	A set of metrics and methods to enable consistent measurement of the components of timing interval error in video synchronization signals is provided in this standard. By partitioning the spectra into regions of jitter and lower frequency wander (characterized as frequency offset and drift rate), timing performance can be better quantified for consistent control over nontraditional networks.
