1. Record Nr.   UNISA996279401603316

   Titolo   Software Quality, Reliability and Security - Companion (QRS-C), 2015
                       IEEE International Conference on / / Institute of Electrical and
                       Electronics Engineers

   Pubbl/distr/stampa Piscataway, New Jersey : , : IEEE, , 2015

   ISBN   1-4673-9598-6

   Descrizione fisica 1 online resource (541 pages)

   Disciplina   005

   Soggetti   Computer software - Reliability

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Sommario/riassunto Annotation Starting from 2015, the SERE conference (International
                       Conference on Software Security and Reliability) and the QSIC
                       conference (International Conference on Quality Software) will merge
                       into one large conference QRS, with Q representing Quality, R for
                       Reliability, and S for Security This enhanced platform, sponsored by the
                       IEEE Reliability Society, will better serve the scientific community as well
                       as the industry It draws engineers and scientists from both industry
                       and academia to present their ongoing work, relate their research
                       outcomes and experiences, and discuss the best and most efficient
                       techniques for the development of reliable, secure, and trustworthy
                       systems This presents an excellent opportunity for the academic
                       community to become more aware of subject areas critical to the
                       software industry, as practitioners bring their needs to the table.
