

1. Record Nr.	UNISA996279423203316
Titolo	IEEE Std 532-1993 : IEEE Guide for Selecting and Testing Jackets for Underground Cables // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	New York, USA : , : IEEE, , 1994
ISBN	0-7381-0795-6
Descrizione fisica	1 online resource (32 pages)
Disciplina	624.1774
Soggetti	Cable structures
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Superseded by IEEE Std 532-2007. This guide covers properties of commonly used jackets as well as selection and testing of jackets. It is written for those responsible for optimizing cable designs. The purpose is to present a reasonably complete picture of the role of jackets so that the subject can be approached in an orderly and organized manner. An effort has been made to avoid the highly technical language and theory commonly used by electrical engineers and chemists to discuss the more detailed application of jackets.
