

1. Record Nr.	UNISA996279435303316
Titolo	IEEE Std 487-2000 : IEEE Recommended Practice for the Protection of Wire-Line Communication Facilities Serving Electric Supply Locations // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	[Place of publication not identified] : , : IEEE, , 2001
ISBN	0-7381-2610-1
Descrizione fisica	1 online resource
Disciplina	537.1
Soggetti	Electric noise IEEE Standards
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Workable methods for protecting wire-line communication circuits entering electric supply locations are presented. This document covers: the electric supply location environment; protection apparatus; services types, reliability, service performance objective classifications, and transmission considerations; protection theory and philosophy; protection configurations; installation and inspection; and safety. Remarks: Revised by IEEE Std 287-2007.
