

1. Record Nr.	UNISA996279551103316
Titolo	ANSI/IEEE Std 644-1987 : IEEE standard procedures for measurement of power frequency electric and magnetic fields from AC power lines // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	Piscataway, New Jersey : , : IEEE, , 1987
ISBN	0-7381-4236-0
Descrizione fisica	1 online resource
Disciplina	621.319
Soggetti	Electric lines Electric power transmission
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Uniform procedures for the measurement of power frequency electric and magnetic fields from alternating current (AC) overhead power lines and for the calibration of the meters used in these measurements are established. The procedures apply to the measurement of electric and magnetic fields close to ground level. The procedures can also be tentatively applied (with limitations, as specified in the standard) to electric fields near an energized conductor or structure.
