

1. Record Nr.	UNISA996279845403316
Titolo	2016 4th International Conference on Enterprise Systems (ES) : Advances in Enterprise Systems : ES 2016 : proceedings : 2-3 November 2016, Melbourne, Australia / / Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	Los Alamitos, California : , : IEEE, , [2016] ©2016
ISBN	1-5090-3790-X
Descrizione fisica	1 online resource : illustrations
Disciplina	658.4038011
Soggetti	Business - Data processing Systems engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	International Conference on Enterprise Systems focuses on both the technical and application aspects of enterprise systems and the complex and cross disciplinary problems of enterprise integration. Apart from that, the conference deals with methods and technologies for the development, adoption, and application of context rich enterprise systems leading to smart machines or intelligent cloud services. The conference committee invites submissions of applied or theoretical research and application oriented papers on all topics of Enterprise Systems.
